

# STATIC CART

## PROTECT HIDDEN FIELDS FROM TAMPERING

### Add this between your <HEAD> & </HEAD> tags:

```
<SCRIPT SRC="js/sc-error.js"></SCRIPT>
<SCRIPT SRC="js/sc-config.js"></SCRIPT>
<SCRIPT SRC="js/sc-language.js"></SCRIPT>
<SCRIPT SRC="js/sc-cart.js"></SCRIPT>
```

```
<script>
<!--
function getData(formName){

var myForm = formName.name;
var QUANTITY = formName.QUANTITY;
var PRICE = formName.PRICE;
var NAME = formName.NAME;
var ID_NUM = formName.ID_NUM;
var SHIPPING = formName.SHIPPING;
var WEIGHT = formName.WEIGHT;
var FSTAXABLE = formName.FSTAXABLE;
var TAXABLE = formName.TAXABLE;
var SUBPRICE;
if ( myForm == "order" ){
  if ( QUANTITY.value >0 ){
    SUBPRICE = "23.45";
  }
  PRICE.value = (SUBPRICE * 1);
  NAME.value = "Widget";
  ID_NUM.value = "123";
  SHIPPING.value = "1";
  WEIGHT.value = "1";
  FSTAXABLE.value = "false";
  TAXABLE.value = "false";

}

}
// -->
</script>
```

### Add this to your Product Page:

```
<!-- Standard Form Tag, redirects to sc-managecart.html when item is added to cart -->
  <FORM NAME=order ACTION="sc-managecart.html" onSubmit="AddToCart(this);">
<!-- Standard Quantity Input Box -->
  <input type="text" size="2" maxlength="3" name="QUANTITY"
onChange="this.value=CKquantity(this.value)" value="1">
<!-- AddToCart Button, includes call to the getData function-->
  <input type="image" src="images/buynow.gif" width="38" height="30"
name="AddToCart" onClick="getData(this.form)">
<!-- Hidden Input, PRICE - Price of a single item (required) -->
  <input type="hidden" name="PRICE" value="">
```

```
<!-- Hidden Input, NAME - the item name (required) -->
    <input type="hidden" name="NAME" value="">
<!-- Hidden Input, ID_NUM - the item id number (required) -->
    <input type="hidden" name="ID_NUM" value="">
<!-- Hidden Input, SHIPPING - additional shipping cost for item (not required) -->
    <input type="hidden" name="SHIPPING" value="">
<!-- Hidden Input, WEIGHT - weight of the item (not required) -->
    <input type="hidden" name="WEIGHT" value="">
<!-- Hidden Input, FSTAXABLE - GST taxable item (Canada - defaults to "true" if omitted if cart configured
for GST) -->
    <input type="hidden" name="FSTAXABLE" value="">
<!-- Hidden Input, TAXABLE - PST taxable item (US & Canada - defaults to "true" if omitted) -->
    <input type="hidden" name="TAXABLE" value="">
<!-- Standard End Form Tag -->
    </FORM>
```
